— CASE IN POINT | **DATADOG + BCG**

How Boston Consulting Group democratized & consolidated data with Datadog

RapDev's implementation of Datadog saved Boston Consulting Group $1.3m and reduced MTTR by 60% through system consolidation

Boston Consulting Group's Journey to Operational Efficiency

Challenge & Technical Solution	Business Impact	
Implemented Datadog for monitoring workloads from legacy to cloud-native	**35%**	**increase** in workload performance optimization
Outdated data centers forced **transition to cloud-native infrastructure in 6 months**	**$1.3m**	**savings**, consolidating to in-house ownership
Fragmentation led to **consolidating 12 automation systems** & opened up access to data for all engineers	**59%**	**MTTR reduction** through improved troubleshooting workflows
Limited visibility with MSPs drove Datadog implementation for **internal control & proactive troubleshooting**	**22%**	**increase** in infrastructure performance efficiency

" The RapDev team has come in to help us with unique cases and implementation of tools that we don't have the experience in. It's been a great relationship where they come in and augment my team for skill sets that we don't have."

- *Paul de Vittorio, Senior Director, Boston Consulting Group*
