

— CASE IN POINT | SPLUNK TO DATADOG

Reducing Costs & Noise with an Enterprise Wide Splunk-to-Datadog Migration

RapDev's migration from Splunk to Datadog ensured an on-spec and on-budget migration in a 6 month timeframe

Transforming operations for greater efficiency, performance, & cost savings

Business Challenge & Solution	Engagement Results	
High log storage costs; 3TB/day reduced to 300GB/day through optimized data ingestion	90%	reduction in data ingestion
Custom Splunk processes migrated to Datadog with no disruption	\$734K	saved in first year
Noisy & bloated dashboards & alerts streamlined	89%	reduction in dashboards & 58 alerts migrated
Knowledge gaps in observability addressed with tailored training for engineers	6	custom enablement sessions delivered

"We couldn't have successfully completed this migration without RapDev. RapDev is now a part of our team and will be involved in any technical solutions or evaluations in the future."

— Director of Engineering
